

# 5601

The *Suburban Sidewinder Sleeve™* is a protection sleeve used for bundling and wrapping hoses and cables. The reusable sleeve features Mil-Spec extreme Hook & Loop closure which allows installation without disconnecting hoses and can reduce labor time by 70%. The sleeve is available in a variety of different material and can be customized in order to meet the needs of any application.

## Typical Applications

The *5601 Sidewinder Sleeve* is great for many mobile and industrial applications. This material is an excellent choice for bundling hoses, wires, and cables. The heavy urethane coating provides a super low co-efficiency of friction. The 5601 Sleeve provides excellent abrasion resistance for wet, high UV and crisp edge applications. Operator protection meets EN982, ISO NORM 833, EN414. Remains very flexible regardless of temperature.

### 5601 Material Features

<b>Material:</b>	1000 Denier Cordura (10.5 oz.) with 4 oz. urethane lamination; Meets MIL-C-83489, FED-STD-191A, MIL-STD-810F
<b>Temperature Range:</b>	-60° to +250° F
<b>Abrasion:</b>	Excellent; meets ISO 6945 Specifications
<b>Puncture/Tear:</b>	Very good; resists tearing
<b>UV Protection:</b>	Excellent; meets EN13758-1 max rating of 80 New
<b>Chemicals:</b>	Very good resistance to water and petroleum
<b>Wicking:</b>	Excellent resistance to absorption
<b>Welding Sparks/Spall</b>	Not Recommended

**Full Roll is 150 Feet**
