

Filters • Regulators • Lubricators

The combination Filter/Regulator units are designed for single-station applications. Use one at each air drop to adjust flow for each pneumatic tool for optimal performance and protection. Each head has a port for inclusion of a pressure gage. Filters offer 20 micron particulate filtration and Quick-Twist release manual drain.

Part #	Port Size	Max. Inlet Pressure	Max. Flow	Setting Range	Overall Height	Overall Width
21999-0190	1/4" NPT	261 PSI	25 SCFM	0-120 PSI	7-12"	1-5/8"
21999-0191	3/8" NPT	261 PSI	88 SCFM	0-120 PSI	9-5/8"	2-3/8"
21999-0192	1/2" NPT	261 PSI	88SCFM	0-120 PSI	9-5/8"	2-3/8"

4338228 Pressure Gage (Sold Separately) 0-160 PSI

The Tsunami™ Pressure Regulator is an all-metal , highly reliable, heavy-duty piston regulator. Piston regulators offer higher flow rates than standard diaphragm units. Tsunami™ Pressure regulators also have excellent set pressure stability.

Part #	Port Size	Max. Inlet Pressure	Max. Flow	Setting Range	Overall Height	Overall Width
21999-0193	1/2" NPT	261 PSI	89 SCFM	0-120 PSI	5.0"	2-3/8"
21999-0194	1" NPT	261 PSI	160 SCFM	0-120 PSI	7-1/4"	3-1/8"

4338228 Pressure Gage (Sold Separately) 0-160 PSI

The Tsunami™ Lubricator is powder-coated Zamak construction with clear Nylon sight slots and delivers a very high quality proportional flow of lubricant per SCFM of air. Lubricator uses a micrometric regulation effect to dispense oil into the air system. The method ensures lubrication at a very low flow as well as at very high flow. Adjustment is achieved by turning the slotted needle located inside the flow gage on the head.

Part #	Port Size	Max. Air Flow	Max. Pressure	Max. Temp	Overall Height	Overall Width	Weight Lbs.
21999-0298	1/4" NPT	30 CFM	261 PSI	122° F	6-5"	1.75"	1
21999-0195	1/2" NPT	153 CFM	261 PSI	122° F	7-5/8"	2-3/8"	1.7
21999-0196	1" NPT	338 CFM	261 PSI	122° F	10-1/4"	3-1/8"	2.2
