

GRADE D BREATHING AIR

Assure Top-Quality Breathable Air with Tsunami's Multi or Single User Breathable Air Packages.

1 - 4 PERSON BREATHABLE AIR PANEL

The Breathing Air Panel is the optimal solution when Grade D Breathing Air is required. The complete system features industry-leading Tsunami 3-stage filtration along with continuous carbon monoxide monitoring and coupler connections for up to 4 users.

- 1 3-stage Tsunami pre-filtration w/ auto drains
- 2 Easy to read digital carbon monoxide alarm
- Calibration made easy with Autocal®

Part Number	Max Pressure	Max Flow	Port Size
21999-0265	250 psi	50 scfm	1/2" npt
21999-0264	Calibration Kit for CO Monitor		
21999-0267	110/120v Wall Pack Adapter		

SINGLE USER BREATHABLE BELT SYSTEM

The Single User Breathable Air System provides Grade D Breathing Air to any individual. Simply connect the 50' Ultra-flo hose from the shop supply air to the belt. The unit incorporates an additional 5' whip hose where incoming air is split and directed through the activated carbon filter prior to enter the breathing hood (sold separately).

- 1 2-stage Tsunami pre-filtration w/ auto drains
- 2 50' Tsunami Ultra-flo Hose
- 3 Belt; co monitor, regulators, carbon filter & 5' whip hose

Part Number	Includes	Max Pressure	Max Flow	Port Size
