

“Ultra-flo” Spray Hose

Defend your work in the booth and take your air system into the future with Tsunami Ultra-Flo technology!

Why should you use the Tsunami Ultra-Flo Spray Hose?

- Engineered for high temperature exposure
- Proprietary internal coating prevents contamination
- Advanced engineering allows hose to lay flat - not prone to coil
- Build in anti-static strip - reduces static build-up
- Extremely lightweight – reduces fatigue
- Technology extends hose life – replace less often
- Manufactured from high quality materials!

Available in multiple sizes!

P/Ns

21999-0495 5'
21999-0496 15'
21999-0505 25'
21999-0449 35'
21999-0450 50'

ANTI STATIC STRIP

- Eliminates static build-up
- Best choice for all tool applications
