

Suburban Sidewinder Sleeve® High Visibility Yellow

Coated side on Left—Uncoated on Right

High Visibility Yellow Material Features

- Material: 210 Denier Cordura with
7.0 Mil urethane coating outside
0.5 Mil urethane coating inside
Meets MIL-C-83489, FED-STD-191A, MIL-STD-810F
- Temperature Range: -60° to +250° F
- Abrasion: Very Good; Tough & Lightweight
Meets ISO 6945 Specifications
- Puncture/Tear: Fair to Good; resists punctures
- UV protection: Excellent; meets EN13758-1, top rating of 80 New
- Chemicals: Very good resistance to water, petroleum products, and
detergents
- Wicking: Excellent; Non wicking
- Welding Sparks/Spall: NOT Recommended

Typical Applications:

Umbilical bundling, covering long lengths of hose or cable that lay on the ground. The high optical visibility and low physical weight make it very good for dragging abrasion protections with good slip characteristics.
