

Heavy Duty Abrasion

The *Suburban Sidewinder Sleeve™* is a protection sleeve used for bundling and wrapping hoses and cables. The reusable sleeve features Mil-Spec extreme Hook & Loop closure which allows installation without disconnecting hoses and can reduce labor time by 70%. The sleeve is available in a variety of different material and can be customized in order to meet the needs of any application.

Typical Applications

The *Heavy Duty Abrasion Sidewinder Sleeve™* is the best substrate for applications requiring protection from the toughest abrasion. The sleeve saves huge time to install vs. spiral wrap. *The Heavy Duty Abrasion Sleeve™* is currently being used in the oilfield industry on frac hoses and on drill rigs, and in the timber industry to replace spiral wrap.

Heavy Duty Abrasion Material Features

Material:	40 HDA
Temperature Range:	-60° to +250° F
Abrasion:	Excellent; meets ISO 6945 Specifications
Puncture/Tear:	Excellent; very puncture and tear resistant
UV Protection:	Excellent; meets EN13758-1
Chemicals:	Excellent; resistant to water and petroleum
Wicking:	Excellent; sheds surface moisture
Welding Sparks/Spall	Excellent

Full Roll is 50 Feet
