

# PYTHON STRAPS

## CINCH & HANGING

### MATERIAL SPECIFICATIONS

Specification	Standard Duty	Heavy Duty
Material:	Nylon	Double backed Nylon
Closure:	Industrial Grade Hook & Loop	Industrial Grade Hook & Loop
Max Cont. Temp:	185° F	200° F
Buckle:	Delrin or Polyamide	Nickel-plated Steel
Grommet:	Nickel-plated Brass	Nickel-plated Brass
Wall Thickness:	.075"	.115"
Nominal Width:	1-1/2"	1-1/2"

### Compliance

RoHS

REACH

Conflict Minerals

### SIZING & ORDERING INFORMATION

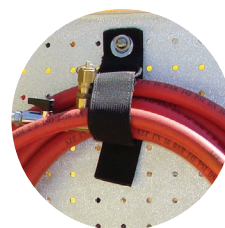

#### PYTHON STRAP® CINCH

Adjustable Circumference	Part Number	
	Standard Duty	Heavy Duty
3.5" - 4"	CS404	CS404H
5.25" - 6"	CS406	CS406H
6.75" - 8"	CS408	CS408H
7.75" - 10"	CS410	CS410H
8.75" - 12"	CS412	CS412H
10.75" - 16"	CS416	CS416H
12.75" - 20"	CS420	CS420H
14.75" - 24"	CS424	CS424H
17.75" - 30"	unavailable	CS430H
20.75" - 36"	unavailable	CS440H

#### PYTHON STRAP® HANGING

Adjustable Circumference	Part Number	
	Standard Duty	Heavy Duty
3.75" - 4"	HS404	HS404H
5.625" - 6"	HS406	HS406H
7.375" - 8"	HS408	HS408H
10" - 12"	HS412	HS412H
12" - 16"	HS416	HS416H
16" - 20"	HS420	HS420H
20" - 26"	unavailable	HS426H

Fast, dependable straps for managing today's complicated fluid power systems.

### INDUSTRIAL STRENGTH

Tenacious, yet light and compact, Python Straps are reusable, tear resistant and unimpacted by extreme hot or cold climates.

### SMARTER DESIGN

Straps allow for natural hose expansion and contraction; preventing damage caused by fixed routing fasteners.

### PREVENT INJURY CLAIMS

Non-evasive, low profile design eliminates injuries and prevents potential worker compensation claims.

### ELIMINATE WASTE

"One part system" design eliminates the need for nylon ties, rubber coated loop clamps, and other discretionary fasteners.

### NO TOOLS REQUIRED

Industrial Grade Hook and Loop technology allows for fast and easy access to hoses or cables without the need for tools.

### DOCUMENTED LOCATION

Hanging straps support bundle during assembly and secure hoses in the desired location.
