

Micro Hanging

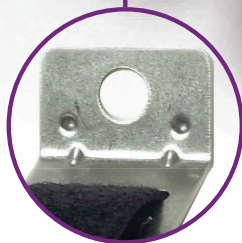

Micro Cinch

Break the Mold MICRO CINCH & HANGING STRAPS

The Industry's Smartest Strap

Managing today's advanced electrical and fluid power systems has become extremely complex resulting in equipment warranty claims, factory injuries, and even poor design. Micro Cinch and Hanging Straps are the next generation of routing tools engineered to eliminate hundreds of miscellaneous mounting hardware parts and provide peace of mind to equipment operators.

DOCUMENTED LOCATION

Hanging straps with locking spurs support the bundle during assembly and can be trimmed to fit once completed.

NO TOOLS REQUIRED

Molded hook and loop technology allows for fast and easy access to hoses or wiring without the need for tools.

INDUSTRIAL STRENGTH

Designed for 45 lbs of stationary load, Micro Straps are reusable, tear resistant and unimpacted by extreme hot or cold climates. Temperature Range: 0-200°F

PREVENT INJURY CLAIMS

Non-evasive, low profile design eliminates injuries and prevents potential worker compensation claims.

UNIQUELY SOPHISTICATED

Double cinch stainless-steel bracket provides the ability to isolate specific wires, cable and hoses.

ELIMINATE WASTE

"One part system" design eliminates the need for nylon ties, rubber coated loop clamps, and other discretionary fasteners.

MICRO HANGING STRAP

- PN: HS5206M 3/16" (5mm) Hole - 3/4" x 6" Hanging Strap
- PN: HS8206M 5/16" (8mm) Hole - 3/4" x 6" Hanging Strap
- PN: HS5212M 3/16" (5mm) Hole - 3/4" x 12" Hanging Strap
- PN: HS8212M 5/16" (8mm) Hole - 3/4" x 12" Hanging Strap
- PN: HS10212M 7/16" (10mm) Hole - 3/4" x 12" Hanging Strap

MICRO CINCH STRAP

- PN: CS206M 3/4" x 6" Cinch Strap
- PN: CS212M 3/4" x 12" Cinch Strap
