

## **Job Description**

### **Machinist – Monticello, MN**

Suburban Manufacturing Group is hiring a Machinist that is looking to work in a close-knit collaborative environment alongside a team of fellow machine operators and engineers. We take pride on our premium fluid power products and need a collaborative individual to complete duties that include but are not limited to:

### **Job Functions:**

- Read and Interpret blueprints, sketches, and technical criteria
- Follow work orders as listed on route sheet, production schedules
- Ability to select, change and apply tooling as required for specific operations and to maintain the tolerance and finish of the machined product.
- Ability to plan and/or create fixtures as needed for efficient machining operations.
- Machines castings, bar stock of various metals, metal alloys, and other materials
- Utilize knowledge of shop mathematics, geometric tolerancing and cutting tool theory.
- Perform CNC programming, trouble shooting, and program transferring. Is responsible for major changes in setup or sequence of operations.
- Basic use of CAM software for computer assisted programming.
- Install, program, and set up attachments to machine tools such as indexers, bar feeds, rotary tables.
- Set and operates one machine tool *or* several machine tools with similar spindle and table movements, with comparable speed, feed controls, and with similar cutting tools or performs the same machining operation for production runs.
- Manufacture precision components.
- Checks dimensions as necessary. Uses such specialized measuring instruments as vernier calipers, inside, outside and depth micrometers, pin gages, ring gages, height stands, and dial indicators, shadow graph, profilometer, and coordinate measuring machine.
- Apply knowledge of inspection and SPC.
- Develop safe working habits, positive attitudes and effective communication skills
- Coordinates repairs in case of machine malfunctions
- Perform preventive and routine maintenance as required to keep machine tools in good working order.

### **Responsibilities:**

- Representing Suburban in a professional manner during all customer and vendor contacts
- Insuring products Manufactured and shipped from our facility meet or exceeds the customers' requirements.
- Working with all personnel in a fair and professional manner.

**Payroll & Benefits:**

- Competitive bi-weekly compensation & PTO
- Matching 401K retirement plan
- Employee and eligible dependent dental and vision insurance available at low group pricing
- Access to FSA and HSA
- Parental leave policy
- Dress-for-the-day work environment
- Free multi-golf course membership
