Best Buy Parts Order Program – Hay and Forage Parts

Best Buy Lubrication Systems

Suburban manufacturing Group is pleased to announce their Best Buy program on lubrication systems for round balers and harvesting equipment.

Lube Minder® Automatic Chain Oiler

Keep chains lubricated without leaving the comfort of the equipment's cab. The Lube Minder® is fully adjustable and automatically disperses clean oil for up to eight chains and sprockets on round balers and combines.

Grease Minder Bank System

Eliminate the time you spend each day greasing your baler. Grease Minder provides a central location for all zerk points, allowing proper maintenance to be completed quickly and easily at the correct hour interval.

LUBEMINDER
OIL & GREASE SYSTEMS

AUTOMATIC CHAIN OILER

EXTEND CHAIN LIFE INCREASE PROFIT

The LubeMinder® Automatic Oiler lubricates chains and sprockets to eliminate having to manually maintain equipment during critical harvest periods. The fully adjustable pump can automatically oil up to 8 chains and sprockets (pneumatic driven) or 10 chains and sprockets (hydraulic driven), and requires no electricity (hydraulic driven). Oil is pumped to the system's brushes, which clean debris off equipment chains and disperse the oil to pin bushing joints.

EXTEND EQUIPMENT LIFE

The LubeMinder® applies oil while the chain is warm and running, consistently oiling to minimize metal-to-metal contact and cool equipment parts.

FACTS & FEATURES

- **Increase Chain Life by 3x:** Specifically engineered brushes clean chains and sprockets while applying oil to all moving parts, increasing equipment life.
- **Eliminate Downtime:** Lubricating while parts are warm and running allows oil to penetrate pin bushing joints.
- **Save Money on Chain Replacement:** Longer lasting chains means less downtime and lower costs associated with chain replacement.

HYDRAULIC & PNEUMATIC
OPTIONS

AUTOMATIC CHAIN OILER

Developed by **SUBURBAN**
MANUFACTURING GROUP

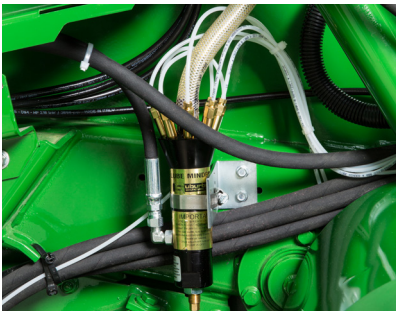

FEATURES & BENEFITS

- **Climate Control:** Fully adjustable pump allows modification of dispensing rate and assures that all chains and sprockets are properly oiled regardless of climate or condition.
- **Increases Resale Value:** Machinery that is well maintained and fully equipped retains higher value for resale.
- **Requires No Electricity (hydraulic):** The LubeMinder hydraulic driven oiling system borrows the pilot signal from the hydraulic system, dispersing oil everytime the cylinder actuates.
- **Pneumatically Operated (pneumatic):** The Pneumaitc LubeMinder with electronic timer/controller uses a compressed air signal for applications where no hydraulic pilot signal is available.

EXPAND & CUSTOMIZE

Spare parts & kits are available for system expansion and customization. Add more lines onto the pump for additional attachments with the "Add a Line Kit". The "Restrictor Kit" is used to limit oil dispersion on specific lines.

Part Number	Description
Lube Minder Automatic Oiler	
170-0597	Baler Oiler Kit - zero series w/ pre-cutter, 5' & 6' diameter bales (7 chains) 560R, 560M, 561R, 550R, 550M, 460R, 461R, 460M, 450R, 450M
170-0595	Baler Oiler Kit - Zero-r, zero-M, and 9 Series; 6' diameter bales w/o pre-cutter (5 Chains) 560R, 560M, 460R, 460M, 469, 569, 561, 451M, 461M
170-0594	Baler Oiler Kit - Zero Series; 450, 550 w/o pre-cutter, and 9 Series; 449, 459, 559 (5 Chains)
170-0580	Baler Oiler Kit - 8 Series, 448, 458 and 558 (5 Chains)
170-0579	Baler Oiler Kit - 8 Series, 468 and 568 (5 Chains)
170-0578	Baler Oiler Kit - 854, 582 Silage Special (10 Chains)
170-0576	Baler Oiler Kit - 7 Series, 447 - 567 (5 Chains)
170-0574	Baler Oiler Kit - 6 Series WITH Wide Pick-up (8 chains)
170-0573	Baler Oiler Kit - 6 Series WITH Mega Tooth (5 chains)
170-0571	Baler Oiler Kit - Standard 6 Series (4 Chains)
170-0596	Combine Oiler Kit - S Series S550, S660, S670, S680 and S690
170-0577	Combine Oiler Kit - STS Combines (3 Chains)
170-0572	Combine Oiler Kit - Walker Combines (4 Chains)
Lube Minder Spare Part Kits	
170-0600	Add Line / Splice Kit
170-0601	Line Kit with Shutoff
170-0602	Restrictor Kit
170-0604	Brush Kit
170-0605	Tank Assembly Kit
170-0607	Mini Maintenance Kit
170-0608	JD - S Series Combine Pump
Grease Minder Bank System	
170-0599	Grease Bank System - Zero M, & 9-series 6' diameter bales (Front of Baler)
170-0583	Grease Bank System - 448, 458 and 558 (13 Grease Points)
170-0582	Grease Bank System - 468, 568 (Front of Baler)
170-0581	Grease Bank System - 468, 568 with Kicker (Front & Back of Baler)
